EX.No:1	Create a responsive web page with a registration form using HTMLS, CSS3, and Bootstrap grid system.

AIM:

To create a responsive web page with a registration form using HTMLS, CSS3, and Bootstrap grid system.

ALGORITHM:

1. **Start the program**
2. **Create the basic HTML structure**
   - Use <!DOCTYPE html>, <html>, <head>, and <body> tags.
3. **Add CSS styling inside <style>**
   - Set a background image for the body.
   - Disable repeat and set size to cover.
   - Design a main container (.xx) with:
     - Border, border-radius
     - Margin spacing
     - Background color
   - Style the header (.header) with:
     - Background color
     - Center alignment
     - Padding and text color
   - Style the image:
     - Set height and width
     - Apply border-radius
     - Align to right side
4. **Create main container**
   - Use to hold the form content.
5. **Add header section**
   - Insert logo/image using <img>
   - Add title using <h2> (IPL Player Registration)
6. **Create form using <form> tag**

7. **Design form layout using <table>**
    - Align table to center
8. **Add input fields**
    - Name → Text input
    - Age → Text input
    - Phone Number → Text input
    - Date of Birth → Date input
    - Gender → Radio buttons
    - Email → Text input
    - City → Text input
9. **Add selection options**
    - Preferred IPL Team → Dropdown (<select>)
    - Player Role → Dropdown
10. **Add batting style options**

- Use radio buttons for Right-handed / Left-handed

11. **Add textarea**

- For additional details using <textarea>

12. **Add submit button**

- Use <input type="button"> or <input type="submit">

13. **Close all tags properly**
14. **End the program**

SOURCE CODE:

```
<!DOCTYPE html>
<html>
  <head>
    <style>
      body{
        background-
image:url("C:/Users/athisha/OneDrive/Desktop/IPL_trophy.jpg");
```

```
    background-repeat: no-repeat;
    background-size: cover;
}
.xx{
    height:auto;
    width:auto;
    border-style: double;
    border-color: rgb(255, 255, 0);
    border-radius: 20px;
    margin-left: 200px;
    margin-right: 200px;
    margin-top: 100px;

    background-color: antiquewhite;

}
.header{
    background-color: darkturquoise;
    border-radius: 20px;
    text-align: center;
    padding: 20px;
    color: cornsilk;

}
img{
    border-radius: 70px;
    height:60px;
    width:60px;
    float: right;
```

```
            }
        </style>

    </head>
    <body>
        <div class="xx">
<div class="header">
<img src="C:/Users/athisha/Downloads/ipl
photo2.webp"*"C:\Users\athisha\OneDrive\Desktop\IPL_trophy.jpg"*  >
<h2>IPL Player Registration</h2>
</div>
<div>
    <form>

        <table *align*="center">
            <tr>
                <td>
                <b>Name:</b><br>
                <input type="text">

                </td>

                <td>
                   <b> Age:</b> <br>
                    <input type="text">
                </td>
                <td>
               <b> Phone No:</b> <br>
                <input type="text">
```

```
        </td>

    </tr>
<br>
    <tr>
        <td>
                <b>Date of Birth :</b><br>
                <input type="date">

        </td>
        <td>
            <b> Choose Gender:</b><br>
            <input type="radio" name="gender">Male
            <input type="radio" name="gender">Female
        </td>
        <td>
            <b>Email:</b><br>

        </td>

        </tr>
        <tr>
            <td>
                <b>City:</b><br>
                <input type="text">
            </td>
            <td>
                <b>Preferred IPL Team:</b><br>
                <select>
```

```
                <option>
                    ----
                </option>
                <option>
                    CSK
                </option>
                <option>
                    RCB
                </option>
                <option>
                    MI
                </option>
                <option>
                    SRH
                </option>
                <option>
                    KKR
                </option>
            </select>
        </td>
        <td>
            <b>Batting Style:</b><br>
            <input type="radio">Right-handed
            <input type="radio">Left-handed
        </td>
    </tr>
<tr>
    <td>
        <b>Player Role</b><br>
```

```
<select>

    <option>
        select
    </option>
            <option>
                Batter
            </option>
            <option>
                Bowler
            </option>
        </select>
        </td>
        <td>
            <b>Textarea:</b><br>
            <Textarea>

            </Textarea>
        </td></tr>
            <tr>
                <td>
                    <input type="button" value="submit" >
                </td>
            </tr>
        </table>

    </form>
</div>
        </div>
```

```
    </body>
</html>
```

OUTPUT:

RESULT:

Hence the output for the sample code using HTML, CSS and Bootstrap has been displayed.
